Filed: 09/22/2003	)	
For: Portable Travel Grip	)	Art Unit: 3632

Madam:

This amendment is in response to the Office Action mailed June 8, 2005. Please

**Claims**

Applicant encloses a claim listing as required by 37 C.F.R. 1.121. Applicant requests that the examiner cancel pending claims 10-14 and review claims 15-18. As submitted, claims 15-19 incorporate the claim language of previously submitted claims 1-4, 5-7 and 10-14. Applicant believes claims 15-18 as submitted address and overcome examiner's rejections and particularly as related to combination versus sub-combination claims. The amended claims as submitted clarify that it is not applicant's intent to claim the frame of the vehicle as a part of the invention but instead the vehicle frame is the intended structure upon which the invention acts.
